

JRKPF

Jurnal Riset dan Kajian Pendidikan Fisika (JRKPF) is a research journal in the field of physics and physics education. JRKPF is committed to presenting research journals with good editing quality and the latest research topics. JRKPF is a forum for researchers, teachers, lecturers, and students to publish their research work. JRKPF was first published in 2014 and periodically twice a year in April and October.

Editor in Chief

Ishafit
Scopus ID: 57216317398
Universitas Ahmad Dahlan
Indonesia

Managing Editor

Toni Kus Indratno
Scopus ID: 57215693227
Universitas Ahmad Dahlan
Indonesia

Editorial Board

Arif Rahman Aththibby
Scopus ID: 57222342956

JRKPF

Jurnal Riset dan Kajian Pendidikan Fisika

Vol. 9 No. 1, April 2022

The electrical productivity of Arabica coffee grounds battery based on electrode distance and dryness level

Ishak Pawarangan, Martina Pineng, Saiful Achmad Anum

Exploring students' argumentation skills using Instagram-based learning

Zayyinul Mushthofa, Susilo, Ellianawati

Utilization of PhET simulation in flipped classroom to improve students' critical thinking skills

Adi Jufriansah, Lensiana Lering, Pujianti B. Donuata

Development of Arduino Uno-based real learning media for measuring density of objects

Matsun, Boisandi, Ira Nofita Sari, Soka Hadiati, Mikael Trimon Zadrianus

System analysis and testing of the benefits of online learning based on madrasah e-learning on physics subjects at MAN 2 Semarang City

Muhammad Luthfi, Susilawati, Arsini

Published by

Table of Contents

The electrical productivity of Arabica coffee grounds battery based on electrode distance and dryness level	1-8
<i>Ishak Pawarangan, Martina Pineng, Saiful Achmad Anum</i>	
Exploring students' argumentation skills using Instagram-based learning	9-16
<i>Zayyinul Mushthofa, Susilo, Ellianawati</i>	
Utilization of PhET simulation in flipped classroom to improve students' critical thinking skills	17-24
<i>Adi Jufriansah, Lensiana Lering, Pujianti B. Donuata</i>	
Development of Arduino Uno-based real learning media for measuring density of objects	25-33
<i>Matsun, Boisandi, Ira Nofita Sari, Soka Hadiati, Mikael Trimon Zadrianus</i>	
System analysis and testing of the benefits of online learning based on madrasah e-learning on physics subjects at MAN 2 Semarang City	34-41
<i>Muhammad Luthfi, Susilawati, Arsini</i>
