

JRKPF

Jurnal Riset dan Kajian Pendidikan Fisika (JRKPF) is a research journal in the field of physics and physics education. JRKPF is committed to presenting research journals with good editing quality and the latest research topics. JRKPF is a forum for researchers, teachers, lecturers, and students to publish their research work. JRKPF was first published in 2014 and periodically twice a year in April and October.

Editor in Chief

Ishafit
Scopus ID: 57216317398
Universitas Ahmad Dahlan
Indonesia

Managing Editor

Toni Kus Indratno
Scopus ID: 57215693227
Universitas Ahmad Dahlan
Indonesia

Editorial Board

Nurul Syafiqah Yap Abdullah
Scopus ID: 57194165492
Universiti Pendidikan Sultan Idris (UPSI)
Malaysia

Rohan Dattaram Lahane
Scopus ID: 57192304490
Nehru Planetarium
India

Arif Rahman Aththibby

Analysis of the multirepresentation ability of physics education students in problem-solving related to physics

Umu Salumita Sari, Himawan Putranta

Investigating the challenges of first-year education students in physics practicum

Charlos Falentino, Eryawan Presma Yulianrifat, Yuni Fatma Safitri, Alphero Tanlianto, Atin Nuryadin, Agus Riyadi

Implementing the ICARE model with AR-based e-modules on global warming to enhance students' self-efficacy

Najla Azmiatunisa, Lina Aviyanti, Duden Saepuzaman, Heni Rusnayati

Aiken's V analysis and Rasch modeling to determine the quality of physics creative thinking test instruments

Kurniawan, Parlindungan Sinaga, Duden Saepuzaman

Systematic literature review: analysis of problem-solving skill trends in physics education (2014-2024)

Melani Dyah Ayu Sukma, Yutisa Is Dhiarni, Rani Kusniati, Yusman Wiyatmo, Heru Kuswanto

The use of diagnostic assessment in high school physics learning: a systematic literature review from 2020-2024

Serli Ahzari, Nisa Cantika Fitri, Festiyed, Emiliannur

Development of Dynamic-Fluid Online Website (D-FLOW) based on cognitive conflict to reduce students' misconceptions

Mochamad Fahmi Irfanudin, Ida Kaniawati, Hera Novia, Bayram Coştu, Soeharto

The effect of the guided inquiry model using PhET simulation media on students' problem-solving ability in static fluid material

Tiara Jill Carissa Febrianti, Muhammad Nasir, Sri Fatmawati, Muhammad Roil Bilad

Table of Contents

Analysis of the multirepresentation ability of physics education students in problems-solving related to physics <i>Umu Salumita Sari, Himawan Putranta</i>	1-9
Investigating the challenges of first-year education students in physics practicum <i>Charlos Falentino, Eryawan Presma Yulianrifat, Yuni Fatma Safitri, Alphero Tanlianto, Atin Nuryadin, Agus Riyadi</i>	10-19
Implementing the ICARE model with AR-based e-modules on global warming to enhance students' self-efficacy <i>Najla Azmiatunisa, Lina Aviyanti, Duden Saepuzaman, Heni Rusnayati</i>	20-31
Aiken's V analysis and Rasch modeling to determine the quality of physics creative thinking test instruments <i>Kurniawan, Parlindungan Sinaga, Duden Saepuzaman</i>	32-40
Systematic literature review: analysis of problem-solving skill trends in physics education (2014-2024) <i>Melani Dyah Ayu Sukma, Yutisa Is Dhiarni, Rani Kusniati, Yusman Wiyatmo, Heru Kuswanto</i>	41-49
The use of diagnostic assessment in high school physics learning: a systematic literature review from 2020-2024 <i>Serli Ahzari, Nisa Cantika Fitri, Festiyed, Emiliannur</i>	50-57
Development of Dynamic-Fluid Online Website (D-FLOW) based on cognitive conflict to reduce students' misconceptions <i>Mochamad Fahmi Irfanudin, Ida Kaniawati, Hera Novia, Bayram Coştu, Soeharto</i>	58-71
The effect of the guided inquiry model using PhET simulation media on students' problem-solving ability in static fluid material <i>Tiara Jill Carissa Febrianti, Muhammad Nasir, Sri Fatmawati, Muhammad Roil Bilad</i>	72-81
